

Performance you can trust

SUNPRESS S105-J

High Performance, Low Residue Cold Metal Forming Lubricant

SUNPRESS S105-J is a high performance, low residue cold metal forming lubricant, specially suitable for use with a wide range of ferrous and non-ferrous metals, including a range of galvanized and zintec coated steels.

SUNPRESS S105-J contains extreme pressure additives which prevent metal pick up between the work piece and tool and provide a cost effective route to increased production rates.

Features

- Minimises “slug pulling” on thin gauge materials.
- Low residue.
- Reduces metal pick up and scoring.
- Easily cleaned.

Directions for Use

SUNPRESS S105-J may be applied by brush, drip, roller, aerospray, or airless spray systems.

Where absolute freedom from surface discolouration is essential, it is recommended that compatibility trials are performed.

Appearance	Colourless liquid
Odour	Mild
Density	0.8gcm ⁻³
Flash Point	>70°C
Storage	Normal storage requirements (0°C to 30°C). Do not allow to freeze
Pack Sizes – Part Codes	1000 ltr - 85214
