

ROCOL confirms that the entire FOODLUBE range complies with the requirements of The Food Safety Act 1990. None of the products in this range are formulated with ingredients that are considered injurious to health.

In addition, we can confirm that all products in the ROCOL FOODLUBE range:

- Are NSF H1 registered for incidental food contact*
- Do not contain any mineral oils that are commonly associated with MOSH (Mineral Oil Saturated Hydrocarbon) or MOAH (Mineral Oil Aromatic Hydrocarbon), predominately alkylated polycyclic. **
- Do not contain mineral hydrocarbons, are not based on partially hydrogenated oils (PHO) and do not use trans fatty acid base stock
- Do not contain any added PFAS materials
- Suitable for use in facilities that manufacture vegan products
- Are formulated from biologically hard raw materials and have been laboratory proven not to sustain bacterial growth
- Do not contain any genetically modified ingredients
- Do not contain nut oils, nut oil derivatives or synthetic glycerides / esters derived from nut oils in the formulations or manufacture i.e. peanut, almond, hazelnut, walnut, cashew, pecan, brazil nut, pistachio, macadamia nut, or Queensland nut***
- Do not contain any jatropha oil or its derivatives
- Do not contain bisphenol, melamine, soya or lanolin
- Do not contain sesame seeds, or extract derivative, or products thereof
- Do not contain crustaceans, fish, eggs, mustard, celery or products thereof
- Do not contain animal fats or synthetic oils / derivatives refined from animal organs
- Cannot transmit bovine or other spongiform encephalopathies (BSE / TSE). The ingredients and manufacturing process are free from BSE/TSE sources of contamination
- Do not contain molluscs – all species e.g. oyster, squid, cockles, mussels, periwinkle & scallops including land molluscs like snails
- Do not contain any dairy products or materials derived from dairy sources
- Do not contain Lupin – (Lupin seed and Lupin flour and all species) and products thereof
- Do not contain cereals containing gluten (i.e. wheat, rye, barley, oats, spelt, kamut, or their hybridised strains) and products thereof
- Do not contain sulphur dioxide & sulphites at concentration above 10 mg/kg
- Are not manufactured with any alcohol added to the formulation
- Furthermore, FOODLUBE products cannot be used as an ingredient of food or medicinal products, however they are not based on any animal derived material and therefore would not contravene EMA/410/01.
- This statement is provided to aid compliance with Food Information for Consumers Regulation (EU) No. 1169/2011

* And are manufactured only from F.D.A. listed ingredients

** It should be noted that MOSH and MOAH are chromatographic measurements of the alkane and aromatic content of an oil and can come from sources other than mineral oil therefore it may be possible that chromatographic MOSH peaks could be detected in some FOODLUBE products.

*** To the best of our knowledge, we can confirm that no nut oil or nut oil derivatives are allowed in the manufacturing areas
